To put on the "lingerie event of the century" and the most-watched fashion show in the world, it takes a village. And that village lives backstage where 38 gorgeous girls walk in as supermodels and are transformed into Victoria's Secret Angels.

The elite transformation team consists of:

**Lead Makeup Artist Tom Pecheux + 21 makeup artists + 7 body bronzing artists**

**Lead Hairstylist Orlando Pita + 21 hair stylists**

**Lead Manicurist Mila Yagoudaief + 4 manicurists**

But you don't need a glam squad or a set of wings to look, feel or even smell like an Angel...

Here's the makeup, hair and body breakdown for the 2011 Victoria's Secret Fashion Show beauty look.

### **MAKEUP: FACE & CHEEK**

Prep skin with **VS PRO Airbrush FX Face Primer SPF 20**. This creates a supple canvas for makeup to glide on.

Using a foundation brush or a damp sponge, buff **VS Tinted Moisturizer SPF 15** in your shade into skin to create a flawless second-skin effect.

For any skin imperfections, custom blend your exact skin match using VS PRO Camouflage FX Concealer Palette and press into skin using a concealer brush or your finger.

To warm the skin, apply **VS Baked Mineral Bronzing Powder in Glitterati** over the face concentrating on the top of the forehead, the temples, the cheekbones and the jawline.

For that rosy flush, swirl **VS Luminous Mineral Blush Duo in Starlet** onto apples of cheeks pulling color slightly up towards the temples.

As a finisher and for that iconic and angelic glow, dust **VS Brilliant Shimmer Shadow in Gold Dust** (yes, a loose pigments eyeshadow!) onto temples and the tops of cheekbones.

The bronzer, blush and gold highlighter should blend seamlessly into one another.

### **MAKEUP: EYES**

Start with **VS PRO Lasting FX Eye Shadow Primer** on lids as a base for the eye look.

For under eye circles, darkness or puffiness, swipe **VS PRO Light FX HD Eye Brightening Pen** under eyes.

Pop that **VS Brilliant Shimmer Shadow in Gold Dust** now onto the browbones and the inner corners of the eye. This will really open and enhance the eyes.

To get ultra-flirty eyes (the focal point of the makeup), run **VS Precision Liquid Liner in Blackest Black** along upper lashline starting at the inner corner and extending slightly beyond the outer corner for a slight upward cat-eye wing. [Note: The overall beauty look for 2011 was very natural so the liquid liner should not be overly dramatic or too thick.]

Finish eyes with coats and coats of the volumizing and lengthening **VS Triple Drama Mascara in Blackest Black**. Layer it on both top and bottom lashes!

### MAKEUP: LIPS

The lip look was soft and pouty so no need for lip liner to achieve it. Start with **VS PRO Smooth FX Lip Scrub & Balm** to exfoliate then replenish lips so they are perfectly smooth and plump.

Apply **VS Perfect Lipstick in Whisper** – a pink champagne nude beloved by makeup artists and the VS Angels!

Top the lipstick with a coat of **VS Lip Gloss is Sublime** – a sheer coral – or **VS Sparkling Lip Gloss in Delight** – a sheer sparkly pink, concentrating on the center of the mouth for added fullness and shine.

### MAKEUP: BODY

Gone was the deep bronze faux glow, and in its place this year for body was a head-to-toe healthy glow! This can be achieved with a liberal coating of **Victoria's Secret Angel Fragrance Lotion**. For a little boost of color, mist **VS Beach Sexy Flawless Airbrush Instant Spray** over the entire body. For highlights and contours, run **VS Beach Sexy Sun Dust Bronze Shimmer Brush** down the center of legs, on the collarbone and over shoulders.

### HAIR

This year's signature hair look was beautiful and full "tousled glamour." Hair was set with curls going outward versus spiral or barrel curls. To amp up the volume and add texture, **So Sexy Style Clean & Go Dry Shampoo** was sprayed. For that healthy shine, **So Sexy Style Brilliant & Glossy Shine Mist** was spritzed.

The total beauty look for 2011 was natural, feminine and glowing. Fit for an angel!
